## WORK EXPERIENCE

### Web Developer Trainee — Next Designer, Vapi

Apr 2026 – Present

- Collaborated on the design and development of client web applications using HTML5, CSS3, JavaScript, and React.js, translating UI/UX design concepts into responsive, functional interfaces.
- Built and maintained backend features using Laravel and Node.js, integrating MySQL databases to support dynamic content and data-driven functionality.
- Worked across both design and development workflows, ensuring visual consistency, responsiveness, and usability across projects delivered to clients.

### Web Development Intern — Enjay IT Solutions

Aug 2025 – Feb 2026

- Developed backend modules using PHP & Laravel (MVC architecture).
- Implemented authentication, role-based access, and CRUD operations.
- Engineered and optimized MySQL databases, executing normalization and indexing across 4+ modules to reduce query response time by 30% over a 3-month period using Laravel Eloquent ORM.

## PROJECTS

### Event Hub

- Implemented multi-role login (Admin, Event Manager, Vendors).
- Built event listing, service management, reviews, and payment workflow features.

### Student Dashboard

- Built a role-based system for students and teachers with live chat, assignment submission, and reminders.
- Implemented authentication and relational database design.
- Focused on layout structure, responsiveness, and UI consistency.
